RE: FUNDAMENTAL FAILURES IN STAKEHOLDER ENGAGEMENT – IMMEDIATE REMEDIAL ACTION REQUIRED

Dear [redacted],

We acknowledge receipt of your letter dated 1st September 2025 responding to our correspondence of 22nd August 2025.

We are deeply concerned by the confrontational tone and conditional demands it contains. Effectively branding an entire rural community as liars – both in this letter and through your comments in the Irish Independent on 3rd September accusing residents of falsely claiming they never received consultation letters – stands in stark contrast to the community-focused image you promote in PCRE's sponsored article in Agriland on 5th September 2025.

Our grassroots organisation of local residents and landowners has consistently sought transparent, good-faith engagement on the Bellville Solar Farm proposal. We find it difficult to reconcile this with your dismissal of widespread notification failures despite compelling evidence, the provision of only two working days' notice for the June consultation event, and public undermining of those raising legitimate concerns – actions which erode trust and the collaborative spirit essential for successful engagement.

The ongoing vandalism of opposition posters, threats to residents, and repeated Garda involvement highlight the tangible harm these tactics are causing the community on the ground.

In recognition of the seriousness of our concerns, we hereby grant you five additional working days from the date of this letter to provide full, substantive answers to the outstanding questions set out in our letter of 22nd August 2025. Failure to provide such responses within this timeframe will be taken as evidence of continuing bad faith and an unwillingness to engage in meaningful stakeholder engagement.

We remain committed to constructive resolution and open to meaningful dialogue moving forward.

Yours sincerely,

Brendan Cronin
