6th October 2025

Dear Mr Cronin,

RE: Bellville Solar Project – Offer to Meet

Thank you for your letter dated 29th September 2025.

While it is disappointing that the AMASS committee has not accepted the offer to meet with representatives from our project team, I would like to reiterate that this offer stands should you change your mind in future.

I believe that face-to-face engagement would clearly be the most constructive means of discussing this project rather than an exchange of letters.

Without the option, at present, of meeting with the AMASS committee, I can advise that we will continue to take forward the extensive engagement as set out in our initial response to you on 1st September. This letter clearly detailed both our 'consultation approach' and 'planned consultation' and answered all questions posed.

Whilst this consultation process is non-statutory and voluntary, we remain fully committed to taking it forward in a transparent manner and listening to the local community as we finalise our plans.

We continue to engage with individual residents and other key stakeholders who are contacting us directly and look forward to hosting a second public drop-in consultation event in advance of the submission of a planning application, in line with our previous commitments.

Please be assured that this public drop-in consultation event will be arranged as soon as we have completed the preparation of a site layout and all relevant technical information.

In conclusion, I do hope AMASS can reflect on its current position around meeting in person with PCRE. Whilst I recognise your oppositional stance to the Bellville solar project, there is nothing to be lost in seeking to understand each other's positions better.

We have a long-term goal of producing clean, sustainable energy through the delivery of significant renewable projects right across Ireland and community engagement will remain at the heart of that.

Yours Sincerely,

[redacted]
